

Home and Community Care Program for Younger People

HACC-PYP provides support for younger people with disability whose capacity for independent living is at risk.

What is HACC-PYP?

Services are targeted to younger people with moderate, severe or profound disability and their carers.

These services support younger Victorians to optimise their health and wellbeing, while maintaining or regaining their independence to live safely in their homes and actively participate in their community.

Am I eligible?

- HACC-PYP supports Victorians from birth to 65 years, or Aboriginal and Torres Strait Islander people from birth to 50 years if their capacity for independent living is at risk. This may be due to chronic illness, mental health issues, disability or other conditions where they need one-off, intermittent or ongoing support to undertake the activities of daily living.

Is there a cost?

There is no cost for a HACC-PYP assessment, however your financial details are discussed during assessment to determine what level – 'low, middle or high' – income bracket you are in to determine the cost of services provided.

Where is it available?

Intereach delivers HACC-PYP in Campaspe Shire (Echuca, Kyabram, Tongala, Rochester, Gunbower, Lockington, Rushworth) and Central Goldfields (Betley, Dunolly, Maryborough, Carisbrook and Talbot).

If you live in another area, please contact us and we will put you in touch with a HACC-PYP service in your area.
