Access At A Glance

With a simple free assessment of local businesses, we can better understand accessibility and inclusion in our community.

Picture this: You arrive at a business and immediately notice a striking display proudly showing a list of accessibility features. That's the power of Access At A Glance—a program designed for people with diverse abilities and mobility who can easily identify accessible spaces, no matter where they are.

Access At A Glance is a growing network committed to fostering accessibility and inclusion.

How does it work?

1. Business owners wanting to participate in the Access At A Glance program can register their interest by contacting us. We will guide you through the process and answer any questions you may have.
2. Our Access At A Glance team will conduct a free assessment of your premises. This quick and easy process will evaluate and record the current business features which meet accessibility guidelines. And importantly we provide advice on suggested improvements.

3. Your business will receive stickers indicating the accessible features available at your premises. These stickers will be placed in a prominent location near the entrance of the premises and serve as a visual guide for customers to highlight your commitment to accessibility in the community.

No cost assessment

This is a free service. Intereach collaborates with councils, business chambers, disability groups, and various service providers to deliver the Access At A Glance project. Any changes to a business and its operations would be at the cost of the operator.

Where is it available?

Access At A Glance is for businesses in the Intereach footprint. If you want to know more, contact our team to discuss opportunities in your area.
