

# Our Sustainability Commitment

At Intereach, we are committed to building strong, inclusive, and sustainable communities — now and for generations to come.

Sustainability at Intereach means creating long-term social, environmental, and economic value by delivering services that support people and communities to thrive — today and into the future. It reflects our commitment to responsible stewardship, community impact, and continuous improvement aligned with our values, purpose, and regional footprint.

We commit to:

- **People** – Supporting health, wellbeing, equity, inclusion, and opportunity for all
- **Planet** – Minimising our environmental footprint and enhancing climate resilience
- **Principles** – Operating with integrity, transparency, and accountability

Our approach aligns with the United Nations Sustainable Development Goals (SDGs) and draws on Environmental, Social, and Governance (ESG) principles to ensure that we contribute to a better future - locally and globally.

### Governance and Responsibility

Sustainability is everyone’s responsibility at Intereach.

The Board provides strategic oversight, the Executive champions delivery, and our teams embed sustainability across all functions.

*“We will remember that strong communities are sustainable communities.”*
